Financial and Commercial

Wall Street Has No Fears of Radical Recommendations in Taft Message.

STRIKE NEWS FAVORABL

ALTOGETHER SITUATION IS RE GARDED AS ENCOURAGING.

New York, Dec. 3 .- Prices of stock turned upward today without any wel defined explanation for the reversal defined explanation for the reversal of yesterday's course. The influences in the market were, for the most part, denials of assertions current yesterday, which caused prices to decline, or renewed assertions of changes in the course of events which were depressing the market yesterday. Reports were circulated that the switchmen's strike in the northwest was not destined to a long continuance. Late in the day came a report from Chicago that it had been settled. The hopeful feeling over this relieved the market

cago that it had been settled. The hopeful feeling over this relieved the market from considerable pressure.

The break in relations in this labor dispute has involved a good deal of uneasiness in financial circles. The necessity for wage adjustments on a comprehensive scale had been admitted for sometime, but there was apparent confidence that negotiations would bring a peaceable settlement. There have been reports circulated at various times of a general movement on the part of the eastern railroads to advance wages as a concession movement on the part of the eastern railroads to advance wages as a concession to possible demands expected. Since the switchmen went out in the northwest the fear has grown that the trouble would spread and overturn the arrangements for smoothing over troubles of this kind.

There was a change of feeling on the subject of the forthcoming message of the President to congress. It was said today that reports from Washington of radical recommendations to be incorporated in the message were not well founded. Professed forecasts of the contents of the message confined them within the lines of the series of addresses made by the President on his tour of the country. This tendency to reverse the opinion of things was taken to point to a professionthings was taken to point to a profession-al origin for much of the dealings in the market. The announcement of the ac-quisition of a majority of the stock of the Birmingham quisition of a majority of the stock of the Equitable Life Assurance company by J. P. Morgan, together with the control of the Equitable and the Mercantile Trust companies involved, was of important effect. The transaction was viewed in connection with the earlier acquisition of the Guaranty Trust company by a partner in the firm of J. P. Morgan & Co. The prodigious centralization in the directing power of credit institutions resulting from this suggests a line of policy dominant in the foremost financial minds of the country which seems to indicate confidence in exemption from effective interference in the processes of combination and consolidation.

A resumption of the concentrated operations in United States Steel on a rising scale was not dissociated from this feeling.

Sub-treasury operations, internating posits for telegraphic transfers to San Francisco, have absorbed \$6,476,000, and the gold outgo to South America has taken \$5,350,000 more. Gold has gone to

taken \$5,350,000 more. Gold has gone to Canada also in large volume during the week. Yet bankers compute a sufficient return from various domestic points to cut down the net decrease in the cash item to less than \$2,000,000.

The loan changes are obscured, owing to the effect of the December 1 disbursements and the deposits against the returnment of Chicago, Rock Island & Pacific railroad collateral 5s in connection with the sale of the St. Louis & San Francisco. The call money rate did not get above 5 per cent, and this somewhat easier tone in that department was more

regarded than f	orecas	ts of	the	bank

GRAIN AND PROVISIONS. Chicago, Dec. 3.—Reports or wet weather in Argentina and rumors of a settlement of the switchmen's strike caused a flurry in the wheat market today, but the advance was not maintained. At the close prices were itower to in the close prices were itower to in the close prices were steady, oats firm and provisions easy. Wheat early was rather heavy, owing chiefly to Argentine advices, which ing chiefly to Argentine advices, which claimed that weather in that country was favorable for harvesting. Poor response of foreign grain markets to yesterday's disquieting reports concerning a possible spread of the strike in the northwest also tended to weaken the market at the start. There was no great selling pressure, however, the volume of trading being light all day. About the middle of the session prices rallied sharply on brisk demand.
